Education

University of Wisconsin- Milwaukee

May 2027

B.S Computer Science (with Honors), Minor in Information Sciences and Technology, Microcredential in AI

Dean's list student | 3.7 GPA

Skills

Programming: C, C++, Python, Java, MATLAB, Django, SQL/MySQL, HTML/CSS, Assembly, Bootstrap

Tools/Tech: Arduino, Raspberry Pi, MPLAB X, Git, Linux, LaTeX.

Coursework: Data Structures & Algorithms, Algorithm & Design, System Programming, Computer Architecture, Discrete Information Structures, Web Development, Software Engineering, Artificial Intelligence.

Experience

Quality Assurance Intern

May 2026 - Aug 2026

HID Global

- Verified firmware reliability across two embedded controller targets, achieving zero critical defects at release, by executing structured test cases in TestRail
- Delivered a new controller-to-host file transfer feature enabling seamless data exchange, by designing and implementing a message brokerage system using MQTT (Mosquitto)
- Validated controller behavior across multiple input/output devices, including electronic locks and card readers, by building Docker containers, cross-compiling code to the target architecture, and running compatibility tests
- Reduced defect escape rate to production, by reviewing and analyzing nightly builds in Jenkins and Bitbucket to flag regressions before QA sign-off

Scheduling Management Web App (Team Project) | Full-Stack Developer

Feb 2025 – May 2025

- Developed a role-based scheduling system with dedicated dashboards for students, TAs, instructors, and admins.
- Built backend functionality in Django and designed responsive UI components using Bootstrap.
- Collaborated in a scrum-based agile team environment to design, implement, and test application features.

Exhibit Maintenance- Discovery World

July 2024 – Sep 2024

Discovery World, Milwaukee

- Redesigned and implemented a 3D circuit for the Whimshurst machine by using Arduino uno and multiple relays programmed in C++.
- Rebuilt the Elements Display to increase visitor interactions by using Raspberry Pi (python) and touch pads.

Support for Undergraduate Research Fellows (SURF) Recipient

Sep 2023 – Aug 2024

College of Engineering & Applied Sciences, University of Wisconsin–Milwaukee

- Worked on the progress of a Solar Sculpture project that assembles a statue harnessing sunlight during the day to emit visual performances at night with the help of the PIC24 microcontroller and a circuit debugger, curated through MPLabs IDE in a Linux environment.

Support for Undergraduate Research Fellows (SURF) Recipient

Sep 2024 – Dec 2024

College of Engineering & Applied Sciences, University of Wisconsin–Milwaukee

- Tested and debugged software for an LC-3 visualization tool, while contributing to project documentation and developing a user manual.

Undergraduate Researcher – Graph Theory Project

May 2025 – Present

Department of Mathematical Sciences, University of Wisconsin–Milwaukee, MAA, NSF

- Conducted research on Truncated Square Graphs focusing on *Total Restricted Broadcast Domination (TR Broadcast Domination)* aiming to answer questions proposed by J. Cervantes and P. Harris.

- Analyzed the properties of TR Broadcasts with a single broadcasting vertex and explored relationships involving eccentricity and graph connectivity.

Leadership /Involvement

Teaching Assistant – Girls Who Code, Milwaukee **Sep 2026 – Present**

- Facilitated Python programming instruction for middle and elementary school girls in the Milwaukee area, supporting hands-on learning and reinforcing coding concepts to build foundational technical skills.

President – Student Association of India, UW–Milwaukee **Aug 2024- Present**

- Coordinated over 20 cultural and social events with over 250 attendees celebrating Indian traditions and diversity within the UWM community.

Future Alumni Network Ambassador – University Advancement, UW- Milwaukee **Sep 2023 – May 2026**

- Increased alumni relations through positive outreach efforts by contacting over 1,232 alumni and culminating over 25,000 dollars for the university that went towards student scholarships and grants.

Math Tutor – Student Success Center, UW- Milwaukee **Aug 2024 – Present**

- Helped over 300 students navigate through challenging concepts in mathematics by simplifying them and going through them step by step

International Advocacy Senator – Student Association, UW–Milwaukee **Aug 2024 – May 2025**

- Represented international student interests within the Student Association, promoting inclusivity and improving campus policies to address student concerns.

ArstECO Intern – UW- Milwaukee **May 2024 – Aug 2024**

- Structured lesson plans and hands-on workshops for a pre-college program serving middle and high school students in the Milwaukee area interested in pursuing a career in arts.

Orientation Leader – University of Wisconsin–Milwaukee **Summer 2024 – 2025**

- Served as a two-time Orientation Leader, guiding over 500 incoming students through academic and campus life transitions by facilitating interactive sessions.
